

The Port of Argentia's main office has been relocated from the former AMA Building 846 to the John Whelan Building, 1 Augusta Avenue, Argentia.

Having served as the Port's headquarters for over 20 years, building 846 was recently sold to Placentia Bay Holdings Inc.

The Port's board of directors, management and staff have settled into their new surroundings and advise tenants, port users and operators at Argentia that it is business as usual at the Port. The Port's operations office is located at 4 Waterfront Drive dockside on the Northside Peninsula.
